

# FIRST LETTER OF MY NAME

The reason I chose to do a K is because it represents me and the first letter of my name. I actually don't think my name is that bad anymore ,but when I was younger I kept changing my name every week because I didn't like it and nobody had that name. I also did the color of the American flag because I love this country and I will stand up for the flag. Now I'm going to show y'all the equation and the coordinates from the K I designed.

## Equations

$$y = 10x + 16$$

$$y = 5x + 14$$

$$y = 3x + 10$$

$$y = 7x + 6$$

$$y = 10x + 2$$

$$y = 8x + -3$$

$$y = 8x + -7$$

$$y = 8x + -11$$

$$y = 4x + -14$$

$$y = 6x + -16$$
